Partnership between CJRAE Argeș and CUT! Project – Preventing Alcohol
Among Pre-Adolescents

The Arges County Center for Resources and Educational Assistance (CJRAE) Arges is a formal education institution specialized in offering, coordinating and monitoring specific educational services provided to children, pupils, parents, teachers and community members in order to ensure access to qualitative education and needed assistance in these cases.

The activity of CJRAE Argeș is based on the principle of maximum flexibility and tolerance regarding the existing differences between children, with the purpose of offering everyone the following: learning based on individual rhythm, abilities and personal needs; communicating based on individual personality traits; facilitating the transformation of the educational system into an inclusive school.

The concepts of integration, school inclusion and non-discrimination - directions of action for the staff of CJRAE Argeș - are central ideas of the educational policies currently promoted. CJRAE Argeș's vision for the community is an inclusive society, in which each individual is optimally integrated, involved and has a proactive attitude towards himself and the social environment. Our mission is to facilitate the inclusion of beneficiaries (students, parents, teachers) and personal development for a quality life.

CJRAE Argeș has a total of 144.5 job positions with 139 employees. Among the employees we find a total of 122 women and 17 men, 12 Roma employees and 3 people with disabilities (special needs) classified as disabled.

CJRAE Argeș covers 77% of the school network of Argeș county, representing 146 school units from rural and urban areas. Of these, a number of 30 villages are included in the category of disadvantaged areas.

We proudly partnered with the CUT! Project as we consider that prevention is the best cure. Alcohol consumption among pre-adolescents became a real issue in Romania, therefore the school counsellors are permanently promoting activities that prevent alcohol consumption among children/pre-adolescents and encouraging a healthy lifestyle. Our school counsellors are all trained professionals, most of them are certified psychologists and they also have pedagogical background – please refer to CUT website for more details:

CJRAE Argeș has its own website where the partnership became visible. We are also promoting this project in the county through the school counsellors employed by CJRAE Argeș. We have an approximate number of 2000 unique visitors/week.

CJRAE Argeș Managin Director,
Prof. Dr. Rodica Emilia CIUCĂ
